

FM 3-19.12

Protective Services

Field Manual (FM) 3-19.12 is a new FM developed to provide guidance for protective service (PS) operations and presents emerging doctrine in the field of PS. This FM was created as a guide for special agents of the United States Army Criminal Investigation Command (USACIDC) and for Military Police (MP) assigned to Protective Service (PS) duties. *FM 3-19.12* describes tactics, techniques, and procedures (TTP) critical to successful PS operations. Operational situations, however, may dictate adaptation or modification to the TTP. This FM applies to all USACIDC and MP personnel performing PS missions, including active duty special agents, civilian special agents, and reserve and National Guard special agents.

DISTRIBUTION RESTRICTION: Distribution authorized to US Government law enforcement agencies only to protect technical or operational information from automatic dissemination under the International Exchange Program or by other means. This determination was made on 2 January 2002.
